

HOTEL

Amano McGann iParcProfessional Hotel system brings enhanced customer service and revenue control to hotel parking. Utilizing compact touch monitor with magnetic card encoder, hotel personnel simply select check-in/check out dates and room number to encode and activate guest room cards for parking facility access and egress. Cards are valid for the selected duration of stay, providing hassle-free guest parking. Parking charges are automatically tracked and accurately reported for daily posting to guest room folios.

- Hotel Parking Management Software
- Posting and Attendant Audit Reporting
- Networked to Parking Server
- Prevent Lost Parking Revenue
- Supports Self Park/Valet Operations
- Activate Guest Card for Self Park facility Check in date, checkout date, audit number (room or folio)
- Supports extending length-of-stay – PARKEDIT™
- Supports deactivating card for early checkout – PARKEDIT™
- Programmable checkout time
- Optional use of room key as parking pass Expiration date label for parking pass
- Thermal label printer issues expiration date label for parking pass
- User-friendly touch screen operation

AS EASY AS 1-2-3.

FAST AND EFFICIENT FRONT DESK OPERATION

Designed around touch screen technology for ease of use and fast processing time, the Amano McGann Hotel System makes it easy for front desk personnel to activate guest room cards for parking facility access, while providing comprehensive back office reporting capability. Built-in flexibility enables multiple cards per room, extended stay, early checkout, room change control, lost card reissue, and card voiding. Amano McGann iParcProfessional Access Software provides card access/egress control to ensure that only authorized hotel guests park in the facility.
